

# Paola's Favorite Homeopathy Books

1

*Homeopathy:  
An A to Z Home Handbook*  
by Alan Schmukler 

**Notes:** Excellent reference book, covers a great list of conditions. Easy to read & perfect for beginners.

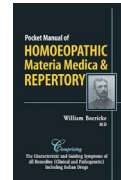

2

*The Practical Handbook of Homeopathy*  
by Colin Griffith

**Notes:** Similar to #1, this is an excellent reference book—but it covers a variety of topics that are different from Schmukler's.

3

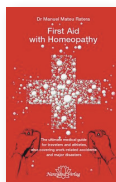

*Pocket Manual of Homoeopathic Materia Medica & Repertory*  
by W. Boericke

**Notes:** You won't get far w/out a good MM. I have several, but this is my fav. It takes some learning, but the first step is get it in your home!

...Of course, I couldn't just do 3 books!

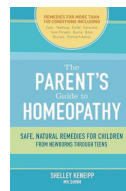

4

*First Aid with Homeopathy*  
by Dr. Manuel Mateu Ratera

**Notes:** If you have younger kids, this is the book for you. Great reference and awesome coaching. It's excellent.

5

*The Parent's Guide to Homeopathy*  
by Shelley Keneipp

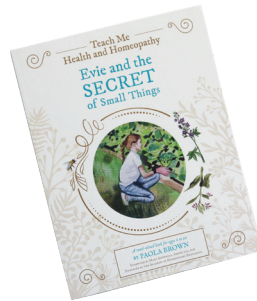

**Notes:** This is a bit harder to find. I have an Amazon link, but you'll have to look around for the actual book. TOTALLY worth the effort.

## Two More Favorite's!

*Evie & The Secret of Small Things*   
by Yours Truly

**Notes:** Kids should be learning about homeopathy and true health too! I like to say it's for ages 6-96, and it's part of my first program, *Teach Me Health & Homeopathy*.

 *Evie & The Golden Homestead*  
by Yours Truly

**Notes:** While this book is technically Part 2 to the first one, it can be read in any order. Be sure you're on my email/text list to be notified when we reopen the vault.
